Model: WC Stain Remover

Limescale remover with replacement pads

The Sanimaid WC Stain Remover is designed to remove limescale in the toilet bowl, however it can also be used in the shower and other places where there is a build-up of stubborn limescale stains, which are difficult to remove with standard methods. The patented WC Stain Removerhas 3 main advantages over the usual abrasive pads. No direct contact with either the toilet bowl or water. Cleans everywhere thanks to the flexible pads, which is a challenge for the larger square sheets. Avoids the risk of infection, due to the antibacterialhandle.

The replaceable pads have been specially designed with 3 layers. The top layer has an abrasive surface. The middle layer is made of foam for effective, easy cleaning. The final layer is velcro, so the pads can be easily replaced. The pads can be used until the abrasive layer is no longer effective.

Features:

- Clever and hygienic way to remove limescale stains.
- Antibacterial handle – avoid the risk of infection.
- 360° efficientcleaningaround the whole bowl – also under the rim.
- Replacement pads sold separately – handle with velcro can be reused.
- More info, pictures & videos: www.sanimaid.com.

Specifications:

Colour	Blue
Style	Handle with velcro + replacement cleaning pads
Size	Handle: 295 x 35 x 50 mm (LxWxD) Pads: 60 x90 mm

Datasheet

Features that make Sanimaid the sensible choice:

Antimicrobial
To avoid spread of bacteria, Sanimaid products are made with built-in antimicrobial technology from Microban®.

5 Years Guarantee
Sanimaids products are made using quality materials and good craftmanship, which ensures a long product life span.

Sustainable
High quality product with a long life span means less disposal of plastic waste and also less water consumption, since you don't need to flush twice to clean the brush after use.

Functionality
Functional design that works. Easy, convenient, and complete cleaning in every corner every time – even under the rim.

Innovation & Hygiene
The patented bristleless cleaning head means no dirt or used toilet paper gets stuck in the cleaning head. For a much more sanitary experience. High-grade water-repellent materials ensures no dripping nor old water from the toilet in the holder.

Ergonomic
All Sanimaids products are designed with practicality and comfort of use in mind. The long handle ensures a good distance from the toilet bowl as well as achieving the right angles for complete cleaning.

Awards & consumer tests:

Sanimaid achieved 5★ in consumer tests and has won several international awards.
