

SICO's best technology

Graffiti remover

Ref: A02150

Graffiti remover C3 without chlorine solvent 500 ML

Removes all graffiti from porous surfaces such as sandstone, marble, brick ...

PACKAGING

Tin plate can diameter : 65 mm / height : 195 mm

Nominal volume: 650 ml - Net volume 500 ml.

Box of 12 aerosols.

INSTRUCTION FOR USE

Shake well before use.

Graffiti on porous surfaces :

Spray at 15 cm to cover with a consistent layer. Wait between 10 and 15 minutes.

Finish by brushing vigorously. Repeat the operation if necessary and rub until the graffiti have disappeared. Complete the operation by washing with large quantities of lukewarm or warm water. Do not apply on rubber without having made a compatibility test.

Paint stripper : spray 15 cm from the surface to cover with a consistent layer. Let act about 10 minutes. The paint will be significantly softened but there are no visible blisters. Remove the practically jellified film with a paint spatula. Repeat the operation if the layer is thick.

Rinse copiously with water.
