DEEP
CLEANING

Redefining the quality standards in **Micro-Scrubbers!**

Proudly designed in The Netherlands to meet the highest standards of quality, performance, and sustainability. Crafted with precision, to guarantee durability like never before!

The Excentr Daily X1 is crafted from aerospace-grade aluminum, resulting in a lightweight (14kg) yet robust construction that can withstand the demands of daily use in commercial and industrial settings.

The Excentr X1 is designed for the daily cleaning of small to medium sized areas. You can customize your cleaning results with ease by increasing pad pressure, just add the two additional weights, providing a maximum extra weight of 10 kg of pad pressure. This feature ensures optimal cleaning performance on a variety of surfaces.

2 CLEANING MODES

But that's not all! The Excentr Daily X1 offers two different programs to suit your cleaning needs:

Standard Mode

Operates at **200 RPM with a perfect balance of suction power**, delivering efficient cleaning performance for everyday tasks.

Rocket Mode

Boost cleaning power to the next level!

In Rocket Mode, **the Excentr Daily X1 runs at 400 RPM with maximum 115% vacuum power**, tackling even the most stubborn dirt and grime with ease. Rocket mode can also be used to clean and polish natural stone in one pass!

Features that define **Excellence**

01

Intuitive Cleaning Speed

Take control of your cleaning process with the Excentr Daily X1's intelligent cleaning speed control. Lift or lower the handle to simply tailor the machine's speed to suit your needs, ensuring efficient and effective cleaning every time.

02

Large Capacity

The Excentr Daily X1 is equipped with large capacity clean water and waste tanks giving an impressive 1,872m² of cleaning per refill.

03

Waterproof Vacuum Motor

The Excentr Daily X1 features a waterproof vacuum motor that is specially designed to withstand exposure to moisture and liquids, ensuring reliable suction power even in challenging environments.

04

Battery Management System

The Excentr Daily X1's batteries are equipped with a sophisticated Battery Management System (BMS) that monitors and regulates power usage, ensuring optimal performance and extending battery life.

05

Easy-to-Swap Power Tool Batteries

Enjoy uninterrupted cleaning power with the Excentr Daily X1's dual power source. Running on two easy-to-swap power tool batteries, this machine provides enough power to work for up to 60 minutes on a single charge.

06

Water resistant control Box

The Excentr Daily X1 is equipped with a water resistant control box that shields sensitive components from water and debris, ensuring uninterrupted operation in any environment. This added layer of protection enhances the machine's reliability and durability, allowing you to clean with confidence.

07

Unmatched Reliability

When it comes to reliability, the Excentr Daily X1 stands tall as the pinnacle of excellence in micro-scrubber technology. Engineered with a commitment to reliability and longevity, this exceptional machine boasts a range of features that ensure consistent and dependable performance, making it the world's most reliable micro-scrubber.

Unmatched Precision and Performance

Explore the advanced engineering behind the
Excentr Daily X1

Performance	:	2,500 m ² per hour
Practice Performance	:	1,760 m ² per hour
Brush Pressure	:	23 kg optional 33 kg
Work Width	:	45 cm
Dimensions Machine	:	38 x 51 x 112 cm
Weight Without Batteries	:	15 kg
Optional Weights	:	10 kg

Clean Water	:	5 ltr.
Waste Water	:	9 ltr.
Materials	:	PA66+25GF ; aluminum
Power Source	:	Li-Ion battery [2 pcs]
Batteries	:	18 V ; 9.0 Ah per battery
Weight Batteries	:	1.5 kg per battery
Brush Motor	:	200 Watt x 2

Turbine	:	200 [max. 300] Watt
Standard Running Time / Charge	:	60 mins
Rocket Running Time / Charge	:	35 mins
Charger	:	110 – 240 V ; 50/60 Hz

Compact, Powerful, and Easy to Use

The **Excentr Daily X1** is designed with the user in mind — combining ergonomic features and innovative technology to ensure superior cleaning results without extra effort.

Key Design Advantages:

✔ Ultra-Compact & Lightweight

- Effortlessly navigates around furniture and tight spaces.
- Easy to transport and store.

✔ Whisper-Quiet Operation

- Perfect for daytime cleaning, even in sensitive environments like hospitals, hotels, and offices.

✔ Eco-Friendly & Cost-Efficient

- Uses minimal water and detergent, reducing environmental impact and operating costs.

✔ User-Friendly Control

- Intuitive controls for any skill level — ready to use within minutes.
- Adjustable handle for comfort and maneuverability.

Where **Excentr Daily X1** shines

The Excentr Daily X1 is designed to seamlessly fit into daily cleaning routines across a variety of industries. Its compact size, silent operation, and powerful performance make it the perfect solution for maintaining high hygiene standards — anywhere, anytime.

Industries we serve:

✔ **Hotels & Hospitality**

Create a spotless first impression for every guest. Perfect for lobbies, hallways, and guest areas, with minimal noise and maximum efficiency.

✔ **Healthcare Facilities**

Maintain sterile environments with ease. Ideal for hospitals, clinics, and care centers, thanks to its hygienic design and thorough cleaning power.

✔ **Offices & Commercial Buildings**

Keep workspaces clean and presentable without disrupting employees. Small enough for tight office spaces, quiet enough for daytime use.

✔ **Retail Spaces**

Ensure a safe, polished shopping environment. Clean during business hours without disturbing customers — boosting brand image effortlessly.

✔ **Schools & Public Institutions**

Promote clean, healthy environments for students, teachers, and visitors — quietly and efficiently.

“**One machine.**
Endless possibilities!”

Ready to Transform Your *Cleaning Routine?*

With its advanced features, lightweight design, and superior performance, the Excentr Daily X1 is the ideal solution for:

Commercial Spaces

Office buildings, retail stores, and restaurants.

Industrial Areas

Warehouses, factories, and storage facilities.
